

Binary Tree Migrator Pro for Exchange BTMPEX

Led by	Course Mode	Duration	Skill Level
Instructor Led Training (ILT)	Classroom & Virtual Lab activities Including quizzes and tests	*2.5 days	Advanced
Student-Led Training (SLT)	Computer Based & Lab activities Including quizzes and tests	up to 6 days	Advanced

*Training day = 6 hours for ILT's after deducting lunch and breaks

Who is this Training For?

The primary audience for this training includes Active Directory Administrators, Exchange Administrators, and Windows Server Administrators.

The training is also relevant for Enterprise Desktop Administrators for their organizations.

Course Description:

Email migrations can be complex and expensive project that introduce tremendous risk to organizations. Downtime and data loss can disrupt end-user productivity, and business operations. Ensuring a seamless transition without hurting productivity or introducing undue IT burden is critical for an on-time, on-budget, and risk-free migration.

This course will help prepare you to be successful by performing an on-premise migration of Exchange, introducing you to Active Directory user object migration to a new domain with labs focusing on Exchange migrations. It will also focus on the installation and configuration of Binary Tree Migrator Pro for Exchange.

If you are taking this course to help your organization successfully migrate, or if you're consultant going for a refresher course, or becoming certified, this course will lead you down the path to success.

Learning Objectives

Upon completion of this training, the student will be able to:

- Create and configure Exchange Migration for on-premise migrations
 - Configure directory synchronization jobs
 - Register source and target organizations
 - Create, configure, and run public folder sync jobs
 - Create, configure, and run Calendar sync jobs
 - Create, configure, and run free/busy sync jobs
 - Create, configure, and run mail sync jobs
 - Perform mail switches
 - Run CPUU and cleanup utilities
 - Understand agent deployment and management
-
